Qigong is an essential part of Traditional Chinese Medicine (TCM). Through specific meditations, and physical and mental energy exercises designed by Dr. Chow, you will learn and experience the innate healing energy that exists within each of us. You will be taught how to connect deeply with the internal power that is there to guide and heal you physically, emotionally, mentally, and spiritually.

- Qigong (chee-goong) can:
- relieve post traumatic event emotional crisis, feelings of hopelessness, helplessness, distress, anger, and depression.
 - Increase your energy and stamina
 - Achieve peak performance
 - Boost your immune system
 - Relieve pain • Reduce stress
 - Delay the aging process
 - Enhance your sexuality

“Effie Chow is one of the strongest energy-based healers and acupuncturists I have met and I have seen with my own eyes some of the remarkable results of her Qigong work.” Deepak Chopra

“The work of Dr. Chow is impressive. She has had remarkable success where others have failed.” Dr. Thomas Malone (Former) Deputy Director, National Institutes of Health

She (Dr. Chow and Qigong) can bring movement to legs that have not walked in years, but is not a physician; can make pain disappear, but is not a magician; can help one overcome life’s crisis, pressure and disappointments, but is not a psychiatrist.” Asian Week.

“At the Congress in 2000, Dr. Chow cured my rotator cuff injury in two seconds on television yet, and it never came back. I remember I didn’t want to be on TV because of my weight. I’m so glad I overcame that vanity for a moment. I had the rotator cuff injury for about two years, very painful in my upper arm, halfway between the elbow and shoulder. I couldn’t lift my arm. The Dr. at Kaiser Hospital said if the pills didn’t work, they would have to do surgery. I remember the qi gong master before you was very theatrical and loud. When we came on next, you said... ‘My style is much gentler.’ I loved it. I am so glad I have known you.” Carol Adams, Mill Valley, CA 9/1/2006

“My 15 years of severe fibromyalgia was suddenly relieved at the workshop and I now am no longer known as ‘the grouch’...but am now called ‘smiley!’ “ Sue B, Vancouver, BC.

Dr. Mehmet Oz on Oprah said: To live to 100 years, practice QIGONG!
